

USGS NWIS Website and Township, Range and Section Well Numbering

Please note when viewing files on the USGS NWIS Website:

1. Not all areas have monitored wells and water levels
2. Most of MWA is in the San Bernardino Baseline Area – this is indicated as an “S” as the last character in the Site Name. Any East Township between 27 and 32 are in the Mount Diablo Baseline Area and this is indicated as an “M” as the last character in the Site Name. (Please see the map on the next page)

STATE WELL NUMBERING SYSTEM

o Each Township has 36 sections
and is approximately 6 miles x 6 miles.

o Each section has 16 tracts (A to R)
and is approximately 1mile x 1 mile.

o Each tract is approximately 1/4 x 1/4 mile.

In this example, If there are two wells in Tract P,

The State Well No. for the second well will be denoted by	02S	03E	28	P	02	S
Township						
Range						
Section						
Tract						
Sequence no. of well within tract						
Base and Meridian (S for San Bernardino and M for Mount Diablo)						

Note: Only Township /Range and Baseline are shown on this map.
