I, DON BARTZ, declare:

1. I am the General Manager for Phelan Piñon Hills Community Services District ("Phelan Piñon Hills"). I make this Declaration regarding the proposal to vacate the stay of rampdown to reduce the municipal and industrial ("M&I") Free Production Allowance ("FPA") to 60% in the Oeste Sub-Area. This declaration is filed concurrently with Phelan Piñon Hills's legal counsel's Declaration by Wesley A. Miliband. If called upon as a witness, I would testify competently to the following of my own personal knowledge, except as to those matters stated upon information and belief, which I believe to be true.
2. As General Manager, I serve as Phelan Piñon Hills's chief executive officer. I have been employed by Phelan Piñon Hills since its formation in 2008. I am responsible for implementation of the policies adopted by the elected Board of Directors and I oversee the business and operation of Phelan Piñon Hills. Prior to that time, I worked in similar capacities as a general manager for public water suppliers. Over the course of my career, including my ongoing tenure with Phelan Piñon Hills, I have become very familiar with operations, maintenance and expenses of water systems, including groundwater production wells that are part of a water system. As part of those experiences, I have been exposed to groundwater adjudications during my tenure with Phelan Piñon Hills, the Antelope Valley Groundwater Basin on the Los Angeles County side of the county line and the Mojave Basin. I am familiar with the judgment for the Mojave Basin and I have had regular interactions with Mojave Water Agency as the Watermaster. Also over the course of my career, I have become very familiar with water-industry customs and practice for providing water service to the public, as well as related economic needs and impacts as water supplies are treated or transacted with purchasing or selling water rights or supplies.

3. I am informed and believe that the Watermaster has not performed studies on the Oeste Sub-Area since around the time that the Judgment was entered in 1996 to justify imposing a rampdown to 60% FPA.

4. I have reviewed hydrographs of wells in the Oeste Sub-Area. These hydrographs contain data that, based upon my training and experience, demonstrate that the Oeste Sub-Area contains areas in which water levels are rising while in other areas of the Oeste Sub-Area levels are declining. Based upon my training and experience, this data informs me that the Oeste Sub-Area has areas that are in relatively good condition, however, additional studies by the Watermaster would further help inform the status of the Oeste Sub-Area. Attached as Exhibit A is a true and correct copy from the Watermaster’s website containing the hydrographs that I reviewed.

5. To help ensure water is used wisely by and within its service area, Phelan Piñon Hills actively encourages and provides “tips” to its residents and customers about the importance of water conservation and how to do so, with such encouragement and tips available at Phelan CIV 208568 DECLARATION OF DON BARTZ IN OPPOSITION OF PROPOSAL TO VACATE STAY OF RAMPDOWN

6. Imposing a rampdown to 60% FPA would adversely impact Phelan Piñon Hills for its planning purposes and mid- to long-term water supply needs because infrastructure connecting Phelan Piñon Hills to the Watermaster's facilities for additional water supplies does not exist, nor do any construction plans exist to intertie Phelan Piñon Hills for potentially additionally needed supplies.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct.

Executed on this 1st day of July, 2020 at Phelan, California.
