## **California WaterFix: It Will Take More Than Duct Tape**

**Tuesday, September 26, 2017  
5:30 - 7:00 P.M.**

More than 50 years ago, the State Water Project was initiated to provide water from Northern to Southern California via a series of dams, pipelines, canals, and tunnels. So why the California WaterFix? The system is now in need of upgrades in the Sacramento-San Joaquin Delta to secure California's water supplies and improve the Delta's ecosystem.

How does this affect the Mojave Water Agency? We are a State Water Contractor, which entitles us to participate or purchase water as a member of the State Water Project. Come hear Tom McCarthy, MWA General Manager, who will walk you through the exciting improvements planned, including the innovative infrastructure, as well as proposed project costs and benefits.

Refreshments will be served. Seating is limited, so register now to attend. Please email Gloria Golike at [ggolike@mojavewater.org](mailto:ggolike@mojavewater.org) or contact her at (760) 946-7001. The deadline to register is September 25, 2017.

Hosted by: Mojave Water Agency

Located at: 13846 Conference Center Dr., Apple Valley, CA
