**FIRST ANNUAL REPORT OF THE  
MOJAVE BASIN AREA WATERMASTER  
1993-1994**

**VOLUME II**

**VERIFIED EXTRACTIONS  
FROM THE MOJAVE BASIN AREA  
CALENDAR YEARS 1986-1990 AND WATER YEAR 1993-1994**

**INTRODUCTION**

The provisions of Paragraphs 24 (c) and 24 (p) of the Judgment pursuant to Stipulation in Case No. 208568 provide that the Watermaster shall perform the following duties:

- 24 (c)        ". . . determine the Makeup Obligations for each Subarea and Replacement Obligations for each Producer and each Subarea, pursuant to the terms of the Judgment."
  
- 24 (p)        ". . . require each Producer to file with Watermaster, pursuant to procedures and time schedules to be established by Watermaster, a report on a form to be prescribed by Watermaster showing the total Production of such Party for each reporting period rounded off to the nearest tenth of an acre-foot, and such additional information and supporting documentation as Watermaster may require."

Paragraph 25 (b) also provides that:

"Replacement Water Assessments shall be levied against each Producer on account of such Producer's Production, after any adjustment pursuant to Paragraph 24 (q), in excess of such Producer's share of the Free Production Allowance in each Subarea during the prior Year."

Compliance with these provisions of the Judgment requires an annual accounting and verification of the actual production of surface and groundwater within the Mojave Basin Area. Included in this

Volume II is the verified accounting of such production by stipulating parties for the Water Year 1993-94. The Maximum Verified Base Annual Production for the five-year base period 1986-1990 is also included.

Three indexes are included which provide a cross index by Owner's Name, State Well Number, and Well Verification Number. In addition, each index shows the Subarea within which the well is located and, to the extent available, the local designation for the well. Also shown is the type of notice or report filed with the State Water Resources Control Board ("SWRCB"), i.e. Recordation Notice (G), Report Pursuant to an Appropriative Water Right (A), or Statement of Water Diversion and Use (S or F). Those wells for which some type of production report is not filed are designated NF.

Table 1 in this report lists the individual wells by owner and the maximum Verified Base Annual Production for each well together with the year of maximum production, and the verified production for the Water Year 1993-94. Where production amounts for a well are not shown, the facility may have produced water but the amount was indeterminate due in part to a lack of power records, meter records, or the existence of multiple electrical loads.

Table 1A shows total water production for certain producers of water for aquaculture and recreational lake purposes and the allocation of such production as verified Base Annual Production and Recirculated Water Production. The total verified production and recirculated water production for the Water Year 1993-94 is also shown.

Table 2 is a summary of verified owner total Base Annual Production together with the year of maximum production and owner total production for the Water Year 1993-94.

Tables 3 through 7 are summaries of verified owner total Base Annual Production and owner total production for the Water Year 1993-94 for each of the five Subareas within the Mojave Basin Area: Alto, Baja, Centro, Este, and Oeste respectively.

Table 8 is a list of party designees to receive notices under the Stipulated Judgment.

Table 9 is a list of Base Annual Production Transfers during the Water Year 1993-94.

Table 10 lists the changes in ownership subsequent to the 1986-1990 Base Period.

The total Verified Production by the Stipulating Parties from each Subarea within the Mojave Basin Area during the Water Year 1993-94 is as follows:

<u>Subarea</u>	<b>1993-94 Verified Production by Stipulating Parties (Acre-Feet)</b>
Alto	81,050
Baja	40,798
Centro	25,895
Este	8,769
Oeste	6,815
<b>Total</b>	<b>163,327</b>

<sup>1</sup> RECORD TYPE IS INDICATED BY LETTER PRECEDING THE RECORD NUMBER (ie):

G = ANNUAL RECORDATION NOTICE

A = APPROPRIATIVE WATER RIGHT, APPLICATION NUMBER

S = STATEMENT OF WATER DIVERSION AND USE

NF = EXTRACTION RECORDS NOT FILED WITH THE STATE WATER RESOURCES CONTROL BOARD

TOTAL VERIFIED BASE ANNUAL PRODUCTION ALL FACILITIES	253,459		163,327				

**NOTES:**

\* WHERE NO AMOUNT IS SHOWN, THE FACILITY MAY HAVE PRODUCED WATER BUT THE AMOUNT WAS INDETERMINATE DUE IN PART TO A LACK OF POWER RECORDS, METER RECORDS, OR THE EXISTENCE OF MULTIPLE ELECTRICAL LOADS.

\*\* THE AMOUNT SHOWN IN PARENTHESIS IS THE BASE ANNUAL PRODUCTION FOR THAT OWNER. THE DIFFERENCE BETWEEN THE BASE ANNUAL PRODUCTION AND THE OWNER TOTAL IS RECIRCULATED WATER AND IS SHOWN ON TABLE 1A OF THIS REPORT.

<sup>1</sup> Total Verified Water Production for each producer. See Table 1.

<sup>2</sup> Base Annual Production is the sum of Lake Evaporation and the Applied Water Requirement for Irrigation and Domestic uses associated with the operations of each owner listed.

<sup>3</sup> Amount shown is the difference between the Total Water Production and the Base Annual Production.
