CASE NO: CIV 208568

OPPOSITION OF NEWBERRY SPRINGS
RECREATIONAL LAKES ASSOCIATION
TO MOTION TO ADJUST FREE
PRODUCTION ALLOWANCE FOR
WATER YEAR 2021-2022

Hearing Information:

Date: June 3, 2021

Time: 1:30 PM

Dept: 1

Before the Hon. Craig G. Riemer, Judge

TO ALL PARTIES AND TO THEIR ATTORNEYS OF RECORD:

NEWBERRY SPRINGS RECREATIONAL LAKES ASSOCIATION (hereinafter referred to solely as "Newberry"), a stipulating and interested party to the above-captioned proceeding, opposes the motion to adjust the free production allowance for the water year 2021-2022, and requests the ramp-down for the Baja subarea be stayed one year, due to changed circumstances. In presenting its opposition, Newberry respectfully represents as follows:

I. INTRODUCTION

As in prior years, the Newberry is compelled to oppose the current Motion to Adjust the Free Production Allowance for the Water year 2021-22, based upon the following described factors. As a preface to its argument, Newberry opines that despite Herculean efforts to work

COPY

1 with the Watermaster, the Watermaster will only politely listen, then take a "business as usual",
2 rote response to the ideas discussed. None are acceptable.

3 The Physical Solution is claimed to be based upon the best science, but no new data is
4 gathered and tested after 25 years of a plan that has and continues to favor the Alto subarea and
5 punish the Centro and Baja subareas. The claimed "best science" is over 25 years old based on
6 data collected and analyzed 30 years prior to that.

7 In addition to the foregoing, the Watermaster is no longer independent but suffers a
8 conflict of interest by having purchased its own water rights, competing with the very producers
9 to which it supposedly should be providing an equitable solution. The water rights purchased by
10 the Mojave Water Agency, have not been retired but are included and potentially skew the Baja
11 subarea calculations.

12 Baja producers continue to stand at the end of the line, now only allowed to use twenty-
13 five percent (25%) of each producer's water rights, and the recommendation is to be ramped
14 down to Twenty percent (20%). All the while, financial resources, enhanced facilities and
15 deference are given to the Alto subarea and the Transition Zone. These facilities and financial
16 resources are not equitably spent and Baja faces the continual excuse of cost, "it is too
17 expensive", for the Watermaster to take the steps to secure data that would prove or disprove the
18 assumptions in Baja and/or to secure resources and facilities to allocate to the long-term solution
19 identified by the Watermaster engineer.

20 **II. BASIS OF OPPOSITION AND REQUEST FOR ONE YEAR STAY**

21 This opposition is based upon a change of circumstances, and new information, all of
22 which is missing from the current motion before the court. Newberry contends that a stay of
23 rampdown for the 2021-2022, only, in order to see the effect of these changed circumstances on
24 the subarea, along with its intended request for specific orders from this Court, relative to further
25 investigation and information by the Watermaster, would not be prejudicial to the Baja subarea,
26 nor to any other stipulating party under the judgment.

27 The changed circumstances and new information, supported by the Declaration of Jeff
28 Gaastra are:

1 1. Mojave Water Agency, the initially appointed watermaster under the Judgment,
2 purchased water rights from Baja user GENON, first in competition with other Baja users who
3 had the opportunity and did bid to secure such water rights as replacement water; and then
4 second, failed to retire the water rights, thereby falsely inflating the production numbers.
5 Treatment of these water rights as retired or otherwise could be part of the solution to mitigate
6 further rampdown.

7 2. The Watermaster has not considered and logically cannot calculate the change that
8 occurs by those alfalfa fields taken out of production and turned into solar farms, as identified in
9 the Declaration of Jeff Gaastra attached hereto. Those fields will not pump water in Water Year
10 2021-22. To consider that use in the new water year unfairly and unnecessarily inflates the
11 production numbers causing further and possibly unnecessary rampdown.

12 3. The Watermaster refuses to acknowledge that there are producers "in limbo" (as
13 Newberry refers to them) which are deceased, not found or have not pumped for years. See list
14 of non-producers attached as Exhibit A. The Watermaster reports that these producers "in limbo"
15 have not pumped, but still includes their rights in the calculation every year, thereby, again
16 inflating the numbers in Baja and forcing rampdown.

17 4. The Watermaster refuses to acknowledge the fact that the California Dept. Of Fish
18 and Wildlife, does not either retire nor pump the full 961 acre feet owned. Less than 100 acre
19 feet have been pumped in recent years.

20 5. The Watermaster is in violation of the judgment by not metering minimal
21 producers. The "guess" of 2228 acre feet being pumped by minimal producers makes those
22 producers consumers of over 20 percent of all available Production Safe Yield water in the
23 basin. This is neither fair nor equitable to the all other producers, yet consideration of the guess,
24 penalizes all other producers and rewards the minimal producers. This amount should be
25 removed from the calculations. See page 3, Line 25 C. Of the Judgment.

26 6. The Watermaster is in violation of the judgment as it contends that there is no
27 "obligation" to insure surface flows of 21,000 acre feet and 2000 subsurface acre feet to the
28 Centro subarea, although the Judgment specifically states said flow is an "obligation to Centro".

1 The Watermaster does not measure nor verify if such obligation is met, rather it takes the
2 position that the obligation is "assumed" to be met. The Baja subarea has repeatedly requested of
3 Watermaster to measure actual flow into the subarea. The Watermaster refuses to do measure
4 actual flow as too expensive.

5 7. The Watermaster must determine how it will address the advent of multiple illegal
6 cannabis grows in the area, which in essence are stealing water for irrigation.

7 8. Newberry addresses the letter of Fred Stearn, attached to the Watermaster motion
8 as being irrelevant. Fred Stearn is a minimal producer without standing. Unless a stipulating
9 party, his letter should not be considered.

10 9. Taking into account the Genon Water, the water in limbo and the water from the
11 Dept. Of Fish and Wildlife that should be considered retired, there is an overstatement of 6284
12 acre feet in the water budget. If the Watermaster recalculated its 2021-2022 numbers for Baja,
13 recognizing this reduction, then Baja would be well within 5% differential allowed prior to
14 imposing rampdown. It should be noted that this requested acknowledgment and recalculation
15 does NOT consider the minimal producers use, which remain unmetered, nor the effect of the
16 solar farm which will take multiple acre feet of water out of production due to the change of use
17 from alfalfa farm to solar farm.

18 Thus all changes taken together and analyzed over the next water year may significantly
19 affect the calculations, and benefit the Baja users. The time to consider these factors is before
20 additional rampdown as common sense and logic support the premise that once there is a
21 rampdown, despite lip service to the contrary, "ramp up" will be impossible.

22 **III. ARGUMENT**

23 In the past, Newberry has suggested many alternatives, all of which are "considered and
24 rejected" as not viable for being "outside the Judgment". Newberry will not repeat them again.
25 However, Newberry does repeat and emphasize that the Judgment After Trial, filed January 10,
26 1996, specifically provides for flexibility within the application of the judgment and provides for
27 potential supplements to the Physical Solution.

1 *"It is essential that this Physical Solution provide maximum flexibility and adaptability in*
2 *order that the Court may be free to use existing and future technological, social,*
3 *institutional and economic options in order to maximize reasonable beneficial use of the*
4 *waters of the Basin Area. To that end, the Court's retained jurisdiction may be utilized*
5 *where appropriate to supplement the Physical Solution. (Emphasis added)."*

6 See the 1996 Judgment after Trial, paragraph 21.

7 The Watermaster has made it clear to stakeholders that it will make no recommendation
8 outside the four corners of the judgment and will not recommend any alternatives based upon its
9 unilateral determination of whether or not an alternative complies with the judgment. This rigid
10 position seems to ignore its equitable duties to all producers, ignores the external change of
11 circumstances, defeats the notion of "ramp up" if our analysis is correct, and potentially offends
12 paragraph 21 of the judgment set forth above.

13 Newberry is in the process of preparing separate motions, unfortunately not complete
14 simultaneously with this opposition, seeking very specific orders for consideration by the Court,
15 that would instruct the Watermaster on data collection and to consider recalculations based on
16 actual data not assumptions that are decades old. Newberry would respectfully request that the
17 Court not make a determination on the 2021-2022 rampdown for Baja until those motions are
18 heard, and would further request a deadline to file those motions of July 15, 2021, to comply
19 with our expert engineer's schedule.

20 Prior to approving and imposing any rampdown on Baja, Newberry would request that the
21 Court find good cause to stay any further rampdown order for the Baja subarea, for one year, so
22 Watermaster may report the effect of removing or retiring the unpumped Genon water, purchased
23 by the Mojave Water Agency, from the calculation of Free Production Allowance for the Water
24 Year 2021-2022.

25 Prior to approving and imposing any rampdown on Baja, Newberry would request that the
26 Court find good cause to stay any further rampdown order for the Baja subarea, for one year, so
27 Watermaster may report the effect of removing from the Water Budget the "water in limbo" that
28 has skewed the numbers for Baja over the past decade. We suggest a separate data base to keep

1 track of the unpumped limbo water, and if the water is ever found to be usable again it can be
2 added to the Water Budget at that time.

3 Prior to approving and imposing any rampdown on Baja, Newberry requests that Court
4 find good cause to stay any further rampdown order for the Baja subarea, for one year, to assess
5 the effect of the change of use of alfalfa fields to solar fields and report same to the court.

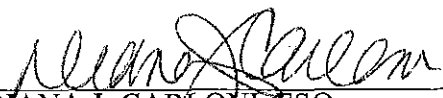

6 **IV. CONCLUSION**

7 Newberry contends that no prejudice to any party to the adjudication, or Judgment would
8 occur by staying the rampdown for the upcoming water year. Maintaining the status quo
9 pending further investigation of the matters identified herein, would assist with meeting the goals
10 of the long-term solution and would be fair and equitable to the producers in Baja, who have
11 historically suffered far greater rampdowns than any other subarea. The stay for one year does not
12 impact any other subarea as Baja is at the end of the subarea chain and there is no obligation,
13 either surface or subsurface to any other area.

14 Newberry requests that the Baja subarea not be subject to a rampdown for one year, the
15 water year 2021-2022 for the reasons herein stated.

16 Respectfully submitted,

17 Dated: May 20, 2021

1 **DECLARATION OF JEFF GAASTRA ATTACHED TO OPPOSITION**
2 **OF NEWBERRY TO MOTION TO ADJUST FREE PRODUCTION ALLOWANCE**

3
4 **JEFF GAASTRA DECLARES:**

5 I am the President of the Newberry Springs Recreational Lakes Association and the person
6 most knowledgeable of that entity as to water matters affecting that entity. The following facts
7 are within my knowledge, information, and belief, based upon my investigation, meetings with
8 the Watermaster, and research on the effect of the Mojave Water Adjudication on Newberry. As
9 to these matters, I believe them to be true.

10 1. Exhibit A hereto is a true and correct copy of the list of BAJA subarea users that
11 have not pumped in over a decade. I personally have checked this list annually. There is a total
12 of 3643 acre feet of water that was not pumped in the Baja subarea. This list is compiled from
13 direct contact with the stipulated parties on the list or no contact because the party is unreachable.
14 I have repeatedly asked Watermaster to verify my list or to give me a copy of a list of their own
15 making for the stipulated parties not able to use their BAP because of legal reasons, and
16 Watermaster has refused. Therefore, my list is made with the best information that I currently
17 have.

18 2. I have read the Judgment after Trial entered in 1996 and all amendments
19 thereto. The Judgment provides at page 3, beginning subparagraph C., the method by which
20 minimal users are handled. The Watermaster engineer uses 2228 acre feet of water use by
21 Minimal Producers in Baja every year, I understand that this number is from a study done by
22 Webb years ago. The Webb study used educated guessing to get the data and to this day Mojave
23 Water Agency fails to verify actual Minimal Producer water production as required by the
24 Judgement. Minimal Producers where to be assessed and be a part of an equitable allocation of
25 the costs of the Physical Solution. To assess Minimal Producers, an accurate verified annual
26 production of the water they used was a requirement of the Judgement. An inaccurate or "Guess"
27 of the actual water use of the Minimal Producers can and does affect the Water Budget in the
28 basin, and with continued rampdown, the effect is amplified if the number is not correct. An

1 accurate water production number by the Minimal Producers in Baja and the illegal commercial
2 cannabis growers, need to be addressed by the Watermaster before further ramping down and
3 penalizing the use by stipulating parties who abide by the judgment.

4 3. On behalf of Newberry, I personally submitted a bid for purchase of the Genon
5 Water in 2019-20. The bid from Newberry was in excess of \$2.7 million for a portion of the
6 water which would defray Newberry's obligation for replacement water. I was advised by Genon
7 that Newberry was outbid, and after several conversations with Watermaster and Mojave Water
8 Agency (MWA) joint counsel, directly asking if MWA was bidding against us, its constituent, he
9 would not answer. It was revealed that MWA was the successful bidder. I thereafter engaged in
10 multiple meetings with MWA on behalf of Newberry, to be able to purchase the water from
11 MWA and was denied. MWA now has two conflicting roles in this adjudication, as it is the
12 governing agency over implementation of the judgment and must now govern itself. This conflict
13 is disturbing at best, but also harms the Baja subarea if the water rights are not retired. The total
14 amount of Genon Water that could be retired to assist our subarea calculations is 2100 acre feet.
15 Retiring this amount would allow MWA enough water to be leased to Genon to fulfil the
16 purchase agreement between Genon and MWA and after the 5 year period is up, they could retire
17 the balance of 2417 acre feet (AF).

18 4. If you add MWA's Genon water, the water in limbo, and The State Dept. of Fish
19 & Wildlife unused water, then remove that amount from the water budget, we would not need to
20 rampdown. We would be in balance according to the Judgement.

21 2100 BAP MWA Genon

22 3643 BAP Limbo water

23 541 BAP not used or retired by Dept. of Fish & Wildlife

24 6284 total BAP that should not be in the water budget

25 The Actual Stipulated (in the Judgement) BAP for Baja is 63,929 AF. Minimal Producers
26 are not ramped down and use 2228 AF, this number is an educated guess by Watermaster's
27 engineer and should not be used until the actual production is known. If you reduced the total of
28

BAJA's Adjudicated BAP by 6284 AF, the new BAP would be 57,645 and Baja would be well within the 5% that the Judgement requires, and we should stay at 25% rampdown.

BAP	2020-21 FPA	PSY	Percent Diff	VP 2019-20
57,645	14,411	12,189	3.87%	18,677

MWA, Watermaster, and Fish & Wildlife, are using every tool that they can to harm water producers in Baja. Watermaster has reduced Baja's return flow, MWA purchased BAP that we needed, MWA is not retiring the BAP they purchased, MWA is not accurately monitoring Minimal Producers, and Watermaster is not removing the water that is in limbo from the water budget at least until the limbo water is adjudicated and available for use. All these actions are forcing producers to either stop pumping or buy water from MWA, when there are other alternatives that would help the Stipulated Parties.

5. I have personally seen and spoken with landowners who ceased alfalfa farming in favor of selling or ground leasing the property to solar farmers. This will remove much agricultural use from pumping. The effect of these new solar farms could bring our subarea into immediate balance. Newberry believes that the Baja subarea rampdown should be deferred until the effect of reduced agriculture is analyzed and calculated by the Watermaster.

6. The current rampdown is at 25%, and the request to rampdown even further is far out of range of all other subareas. There is no further downstream obligation after Baja and a moratorium for one year to re-assess the plan for a long-term solution by addressing the other matters stated in this declaration and opposition, would not prejudice any party. The resulting changed uses (alfalfa fields, unused water and Genon water) might well keep this subarea within acceptable limits.

7. Other matters including the water obligation from Alto to Centro are matters for which affirmative motions are being prepared for consideration by the Court. Newberry requests the Court set a filing date for those motions for no later than July 15, 2021. The motions will seek an order to instruct the Watermaster with respect to the obligations required of it, under the Judgment. These motions could not be filed concurrently as Newberry was continuing to work with Watermaster to exhaust all possible avenues of collaborative effort and relief. As of

1 May 11, 2021, the last meeting, it was apparent that Newberry will be required to file the
2 motions.

3 8. Based upon the foregoing, and on behalf of Newberry, we request the court not grant
4 and/or stay any further rampdown in the Baja subarea for a period of one year only, to address
5 these very specific items.

6 I declare under penalty of perjury of the laws of the State of California that the foregoing
7 is true and correct to the best of my knowledge, information, and belief, and as to the matters
8 stated on information secured by me or provided to me, by MWA and the Watermaster, I believe
9 such matters to be true.

10 I have executed this declaration on the 20th day of May, 2021 at Newberry Springs,
11 California.

PROOF OF SERVICE

**STATE OF CALIFORNIA }
COUNTY OF SAN BERNARDINO}**

I am employed in the County of the San Bernardino, State of California. I am over the age of 18 and not a party to the within action; my business address is 13846 Conference Center Drive, Apple Valley, California 92307.

On May 21, 2021, the document(s) described below were served pursuant to the Mojave Basin Area Watermaster's Rules and Regulations paragraph 8.B.2 which provides for service by electronic mail upon election by the Party or paragraph 10.D, which provides that Watermaster shall mail a postcard describing each document being served, to each Party or its designee according to the official service list, a copy of which is attached hereto, and which shall be maintained by the Mojave Basin Area Watermaster pursuant to Paragraph 37 of the Judgment. Served documents will be posted to and maintained on the Mojave Water Agency's internet website for printing and/or download by Parties wishing to do so.

Document(s) filed with the court and served herein are described as follows:

OPPOSITION OF NEWBERRY SPRINGS RECREATIONAL LAKES ASSOCIATION TO MOTION TO ADJUST FREE PRODUCTION ALLOWANCE FOR WATER YEAR 2021- 2022

 X I, Jeffrey D. Ruesch, declare under penalty of perjury under the laws of the State of California that the above is true and correct.

Executed on May 21, 2021 at Apple Valley, California.
