19 CASE NO: CIV 208568
20 OPPOSITION OF NEWBERRY SPRINGS
21 RECREATIONAL LAKES ASSOCIATION
22 TO MOTION TO ADJUST FREE
23 PRODUCTION ALLOWANCE FOR
24 WATER YEAR 2023-2024

25 Hearing Information:
26 Date: June 8, 2023 6/9/2023
27 Time: 1:30 PM
28 Dept: 1

Before the Hon. Craig G. Riemer, Judge

TO ALL PARTIES AND TO THEIR ATTORNEYS OF RECORD:

NEWBERRY SPRINGS RECREATIONAL LAKES ASSOCIATION (hereinafter referred to solely as "Newberry"), a stipulating and interested party to the above-captioned proceeding, opposes the motion to adjust the free production allowance for the water year 2023-2024, and in presenting its opposition, respectfully represents as follows:

I. BASIS OF OPPOSITION

This opposition focuses on the BAJA subarea only. It is more of a report than actual opposition, providing information which Newberry feels is important for the Court's consideration, or providing information otherwise omitted and Newberry feels the facts are important for consideration by the Court. This opposition focuses on Newberry's continuing

1 request for consideration and action by the Watermaster under the current circumstances of the
2 BAJA Subarea which have evolved during the prior years. The elements of this opposition are:

3 A. Newberry agrees and supports no further ramp down of Free Production
4 Allowance (FPA) as the motion demonstrates that its Free Production Allowance does not
5 exceed its Production Safe Yield (PSY) by five percent (5%). Per the declaration of Robert C.
6 Wagner, the Baja Sub Area FPA is within 4.9% of PSY.

7 B. Prior to any further rampdown of the Baja Subarea, Newberry requests that the
8 Court consider the changing circumstances of the Baja Sub area. It has been apparent by the
9 numbers that the low rampdown, overtime, has been positive to the groundwater levels. This is
10 reflected in the data of Dr. Wagner. Newberry emphasizes these changed circumstances and
11 further emphasizes the fact that adjustment of FPA under the Judgment can be upward or
12 downward. Newberry requests the court not rule out future consideration of increasing the FPA,
13 should the circumstances warrant. The changing circumstances are set forth below.

14 C. Based upon the content of the motion, Newberry supports the funding and
15 installation of additional gages at Minneola Road and in the Kane Wash, as recommended by
16 Wesley Massoll, PG in his report to the Watermaster Board on April 27, 2023. See attachment 1
17 to this opposition, which is public record and a copy of the report received, and part of the
18 official record of that meeting. The additional gages will provide further credible data on the
19 changed circumstances in the Baja Subarea with real data, that may result in no further
20 downward adjustments in FPA.

21 D. The Watermaster is in the process of re-evaluating PSY for Baja, which cannot be
22 completed nor relied upon without considering the effect of mountain run-off. Complete data is
23 essential to re-evaluating PSY and these additional studies along with funded gages at Kane
24 Wash and Minneola Road, would provide real data to assist in the re-evaluation of PSY.

25 E. Newberry objects to any selective enforcement of the Judgment in its efforts to
26 bring minimal users and illegal users into compliance. All users should be subject to the same
27 rules.

28 ///

1 **II. CONTINUED STANDING**

2 Newberry Springs Recreational Lakes Association (hereinafter the "Newberry") is
3 an unincorporated association, registered with the state of California, Office of the Secretary of
4 State under registration number is 14333. Newberry is an association of ten (9) recreational
5 lakes located in Newberry Springs. There are approximately 260 residences among the nine
6 recreational lakes. It is notable that each of these 260 residences DO NOT have the right to
7 minimally produce as each of the lakes and the association has stipulated to the judgment.
8 Therefore as Newberry responds to the Court with this brief, it is not solely about recreational
9 use of water in lakes, it is also 260 residences and the families that live within them, that
10 potentially face a loss of water and loss of their homes.

11 Pursuant to the Stipulated Judgment in this proceeding, entered on January 10, 1996,
12 "Parties" are defined in Paragraph 4.(v), at page 10 beginning line 26, and includes "any person
13 named in the action who has intervened in the case or has become subject to this Judgment either
14 through stipulation, default, trial or otherwise". (Emphasis added).

15 Newberry became a party, as defined in the judgment, when it stipulated to become
16 bound to this judgment on October 28, 2015, which stipulation was signed and approved by the
17 court on December 30, 2015.

18 **III. DISCUSSION**

19 A. Rampdown: NSRLA agrees with Watermaster engineer Mr. Robert Wagner's
20 recommendation that Baja should stay at 20.5% rampdown for the next water year. Baja has been
21 ramped down further than any other Mojave Water Basin Subarea. Finding the right balance of
22 groundwater takes time. Baja has undergone much change in water use in the last few years, all
23 of which are positive for the basin. Baja is also an under studied area, much more data is needed
24 to verify the actual Production Safe Yield in Baja.

25 B. Changed Circumstances: At the Watermaster's Baja workshop on March
26 14th, 2023, Mr. Wagner told NSRLA president Jeff Gaastra, that with the large change of water
27 use in Baja, he needs time to evaluate the changes to groundwater. Mr. Wagner's data is always
28 rearward looking and cannot predict the future. By monitoring groundwater levels in Baja via

1 local wells, the data will show how, over time, the removal of 16 alfalfa fields and the current
2 rampdown level of 20.5% has affected the basin. You can see on the attached google map, the
3 red x's marking the alfalfa fields that are now solar farms. See attachment two, which is a copy of
4 a google map marked by Newberry. It is common information gleaned from the mapping of the
5 area and the personal knowledge of Jeff Gaastra as to fields that have ceased use. This change
6 represents half of all the large agricultural water use in Baja. Currently there are no farmers
7 farming alfalfa in Baja because of the nature of the rampdowns.

8 The solar plant construction uses large amounts of water for the construction of the plant
9 and to mitigate the dirt/dust that blows on windy days, although they don't do a very good job
10 keeping the blow dirt from blowing. Generally, the Baja Subarea gets wind, quite often in the
11 60-70 mph range. Construction should be completed this year (2023) and the water use of the
12 solar plant, once constructed, will be very minimal or non-existent.

13 One of Newberry's member Lakes has dammed up one of their two Lakes and let it go
14 dry. This is a result of the rampdown and the high cost of replacement water. This Lake was
15 about 10 surface acres and will save about 70 AF of evaporative water a year. This is good for
16 Baja but bad for the homeowners that have lost value in their properties. This loss of property
17 value and loss of property rights has been predicted and brought before the Watermaster Board
18 and the Court almost every year. Newberry has advanced multiple proposals to attempt to avoid
19 this unfair result, and all proposals have been rejected. We now have actual damage to property
20 owners arising out of the failure of the MWA to consider proposals to mitigate this risk of loss.
21 It is unknown if these property owners will ever recover their right of quiet enjoyment of their
22 "lakefront", which they purchased with their properties.

23 Despite the mixture of positive and negative circumstances, Producers in the Baja
24 Subarea are already seeing their wells in Baja start to level out according to the Wagner well
25 data. In some instances the water level is starting to rise. These findings were made *before* the
26 2023 storms that saw water flow all the way into Baja. There is a good chance that Baja has
27 already been ramped down beyond what is necessary to be in balance. When the actual data is
28 acquired and analyzed, in the face of the changed circumstances, additional gage monitoring and

1 mountain run-off, Newberry believes it will demonstrate that the groundwater is rising. It may be
2 time to consider an increase in FPA for the area, consistent with the requirements of the
3 judgment.

4 C. Funding of Water Gauges: Newberry appreciates that the Mojave Water
5 Agency funded two new stream gages at Hodge Rd. and in Daggett. Newberry further
6 understands that MWA was able to catch the recent 2023 storm flow data of water into the
7 Centro and Baja Subarea's. At a recent Mojave Water Agency meeting, April 27th, 2023, Wesley
8 Massoll, PG presented a proposal for more new surface flow stream gages. See Attachment 1.
9 Baja has little to no data on water that the surrounding wash's and streams. Baja is a low basin
10 surrounded by hills and low mountains and there are several year around springs in the
11 surrounding hills. This topographical configuration suggests that there are other water sources
12 than just the Mojave River. In Mr. Massoll's presentation, he proposed a gage at Minneola Rd
13 and in Kane Wash. Both locations would help to show the inflow of water from both winter and
14 summer storms into Baja. The Minneola Rd gage would capture the flow from the Calico
15 Mountains runoff into the Mojave River and the Kane Wash gage would capture the flow from
16 the Newberry Mountains and Rodman mountains. Although there are many more areas that have
17 mountain runoff, the information gathered could help better estimate flow from these areas into
18 Baja. We encourage MWA to fund these gages for the benefit of Baja.

19 D. Re-Evaluation PSY for Baja: Mr. Wagner will be working to reevaluate
20 the Production Safe Yield in Baja in the coming water year, as ordered by the court. Without the
21 data from the local mountain runoff, it would be unfair to Baja to further reduce the PSY. Baja is
22 a low valley surrounded by hills and mountains where all the water flows from local storms and
23 adds to the groundwater. We believe that if the proper data were to be acquired, the PSY could
24 rise. Climate change affects regions differently and Baja has seen large summer storms that flood
25 our area more and more over the last 20 plus years. Could this be from climate change? Who
26 knows? But knowing how much inflow of water into Baja is very important when reevaluating
27 PSY.

28 ///

E. Enforcement of Judgment as to All Users: Newberry is encouraged that Mojave Water Agency has worked with the County of San Bernardino and the Sheriff's department to slow or stop the illegal use of water in Baja and other Subareas. Also, the efforts to quantify water use from the minimal producers that are using more than 10 AF of water are positive. The Judgment required MWA to assess *all minimal producers*. Newberry understands this is a difficult task, but difficulty does not excuse the task. MWA is working on this, but is having a hard time working with the County. Newberry is being held to the terms of the judgment just as the MWA should be so held. There should continue to be an effort to address all users and bring all users into compliance.

IV. CONCLUSION

Based upon the foregoing issues and arguments, Newberry does not oppose the recommendations for the BAJA Subarea in the instant motion but requests that the information provided to the Court be considered in the rendering of any further orders relative to the Baja Subarea.

Respectfully submitted,

Dated: May 23, 2023

DIANA J. CARLONI, ESQ.,
ATTORNEY FOR NEWBERRY SPRINGS
RECREATIONAL LAKES ASSOCIATION

DECLARATION OF JEFF GAASTRA

JEFF GAASTRA DECLARES;

I am the President of Newberry Springs Recreational Lakes Association. As the President, I attend Mojave Water Agency meetings, Watermaster Meetings, Subarea Meetings, speak with the involved professionals and directors and staff of the Mojave Water Agency, Robert C. Wagner, and individual well users and producers in the Baja Subarea, including Lakes members, farmers, and minimal producers. I personally advocate for the Lakes themselves and for the Baja Subarea, generally.

The factual date presented in the attached opposition is presented as a result of my investigation and research, personally conducted in preparing for this hearing.

Attachment 1 is a true and correct copy of the materials disseminated by the Mojave Water Agency as to the study conducted by Wesley Massoll, PG as to the funding and installation of water measuring gauges. This document was part of the agenda and public record of the Mojave Water Agency meeting of April 27, 2023.

Attachment 2 is a true and correct copy of a google map aerial picture of a relevant portion of the Baja Subarea with farming areas noted thereon. I am personally familiar with the farming areas depicted in the aerial photograph. I personally visited each farming site, whether a prior farming site now fallow or subject to solar farm use, or a farming site still active. I placed all red "X"s on the map depicting the sites that are no longer used for farming.

As to all of the factual data and argument presented in this opposition I declare it to be true and correct to the best of my knowledge and/or research and/or investigation and/or information and/or belief. As to all matter stated herein, I believe them to be true.

Executed this 26th day of May, 2023 at Newberry Springs, California.

JEFF GAASTRA

PROPOSED NEW SURFACE WATER STREAM GAGES

Presenter: Wesley Massoll, PG

Thursday, April 27, 2023

ATTACHMENT #1

◆ BACKGROUND

- FY 22/23
 - Hodge and Daggett stream gages added to the USGS Program Letter
- PREO, January 17, 2023
 - The Committee requested Staff consider additional new surface water stream gaging stations

USGS Program Letter

- **Current Cost**
 - Total Program Cost
 - ~\$450,000 per year
- **Stream Gages Only**
 - ~\$235,000 per year
 - ~52% of Program Costs
- **"Adjudication Gages"**
 - ~\$182,000 per year

- Proposed New Surface Water Gage
 - Proposed Reactivation of a Surface Water Gage
 - Current USGS Surface Water Gage
- Gages Used by Water Master to Enforce Adjudication**

- Proposed New Surface Water Gage
- Proposed Reactivation of a Surface Water Gage
- Current USGS Surface Water Gage

USGS Program Letter

- New Gages Proposed
 - Cushenbury (Este)
 - Indian Trail (Centro)
 - Kane Wash (Baja)
 - Minneola (Baja)
 - Pipes Wash (Morongo)
 - Sheep Creek (Oeste)
 - *Scrap Yard (Alto)

*Added at request of PREO
committee

USGS Program Letter

- **New Gages Ranked Priority**

1. Cushenbury (Este)
2. Sheep Creek (Oeste)
3. Kane Wash (Baja)
4. Pipes Wash (Morongo)
5. Indian Trail (Centro)
6. Scrap Yard (Alto)
7. Minneola Rd (Baja)

USGS Program Letter

- **USGS Cost of 1 Gage**
 - \$26,300 1-time cost
 - Installation
 - Equipping
 - Rating Curve
 - \$26,300 O&M Annual Fee
 - Total 1st Year Cost
 - \$52,600
- USGS Owns All Equipment

USGS Program Letter

Gage Costs Include

- Complete USGS Responsibility
 - Gage station
 - Communication link
 - Rating curve
- Full Installation/Maintenance
 - Permits, ROWs, Easements
 - Vandalism!
- GOES Satellite Data Link
 - Data are real-time on NWIS
- USGS Backed Data Integrity

USGS Program Letter

Financial Impact

- No New Gages
 - ~\$450,000 per year
- 7 New Gages*
 - ~\$184,100 1 time cost
 - ~\$184,100 O&M Fee
- 7 New Gages New Program Costs
 - \$818,200 First Year
 - \$634,100 Thereafter
- 5-year cost of existing and proposed gaging program (14 gages):
 - ~\$2,277,325

How Big of a Pie Slice are We Talking About?

■ *Rest of MWA Annual Expenses ■ USGS Program Letter

Discussion

Potential Alternatives

New In-house Staff

- \$109,409.17 (Water Resource Specialist II)

Balance Hydrologics

Quote (4 sites):

- Installation Plan
 - \$25,000 (1st Year)
- Ongoing Gaging Efforts
 - \$50,000 (Annual Cost)

Discussion

Benefits of Explored Alternatives:

- New MWA Staff
 - 60% Cost Savings First Year
 - 41% Cost Savings Thereafter
- Balance Hydrologics
 - 63% Cost Savings First Year
 - 46% Cost Savings Thereafter
 - (assumed \$100,000 for 7 sites)

Caps USGS Program Letter to
\$450,000 a year

Still Gather Important Defensible
Data

Discussion

Cons of Alternatives

- In-House
 - MWA would be responsible for equipment repair and replacement
 - Training and management of new Staff
- Consultant
 - Additional staff burden on Staff for project management
- Data NOT backed by USGS
 - Would follow USGS best practices

Discussion

**Staff is seeking input
from the Board of
Directors**

PROOF OF SERVICE

STATE OF CALIFORNIA, COUNTY OF SAN BERNARDINO

I am employed in the County of San Bernardino, State of California. I am over the age of 18 and not a party to the within action. My business address is 16195 Siskiyou Rd., Suite 130, Apple Valley, CA 92307.

On May 26, 2023, I served the within documents described as NOTICE OF INTENT TO APPEAR AND PRESENT ORAL ARGUMENT BY NEWBERRY SPRINGS RECREATIONAL LAKES ASSOCIATION AT HEARING ON MOTION TO ADJUST FREE PRODUCTION ALLOWANCE FOR WATER YEAR 2021-2022 on the interested parties in this action, as follows:

By email or electronic transmission to the Watermaster and its counsel at the e-mail addresses listed below, and I did not receive, within a reasonable time after the transmission, any electronic message or other indication that the transmission was unsuccessful; and

By messenger service to the Watermaster, **on May 30, 2023** the documents referred to hereinabove were personally delivered to the Watermaster by Rapid Attorney Service, a professional Service of Process/messenger service; A Declaration of Messenger will subsequently be filed; and Via, Watermaster to all parties to the action, pursuant to the Judgment of this case and the Mojave Basin Area Watermaster's Rules and Regulations paragraph 8.B which provides that service to be the responsibility of the Watermaster and paragraph 10.D, which provides that a party's service obligation is satisfied upon delivery of a copy of the conformed documents as filed with the Court. As of today, the Watermaster has not set a service fee. Per the Watermaster's request, I will cause a check to be delivered to Watermaster upon being notified of the Watermaster's service costs.

Mojave Basin Area Watermaster
c/o Valerie L. Wiegenstein,
Watermaster Services Manager
13846 Conference Center Drive Apple Valley, CA 92307-4377
watermaster@mojavewater.org

[x] **BY MAIL.** On May 23, 2023, I caused such envelope, as indicated on the addresses noted above and/or the attached service list, with postage thereon fully prepaid to be placed in the United States mail at San Bernardino, California. I am readily familiar with the firm's business practice for collection and processing of correspondence for mailing with the United States Postal Service and that the foregoing document was placed for collection and mailing in accordance with ordinary business practices pursuant to *Code of Civil Procedure*, Section 1013a.
