

The Mojave Water Agency and U.S. Geological Survey are working together in a comprehensive program to monitor water levels and maintain historic records throughout the Regional Basin. The graphed wells are selected based on spatial and temporal representation of the Subarea. All wells on the Hydrograph Map are a part of the MWA Monitoring Program, and have data available to the public from either the Mojave Water Agency Website, the USGS National Water Information System (NWIS) Website, or the California Statewide Groundwater Elevation Monitoring (CASGEM) Website. For more information please contact Mojave Water Agency.

Mojave Water Agency

Data Sources:
 MWA, US Census, USGS/NWIS, DWR, Bulletin 84 1967, Date: January 2024, Mojave Water Agency, Water Resources Department

- Graphed Wells
- MWA Monitoring Program Wells
- CA Geologic Faults (CGS, USGS)
- USGS Perched Water Table
- MWA Recharge Pipeline

Este Subarea Hydrographs 2024

- Recent record
- Long-term record (begins ~1950 to ~1980)
- Very long-term record (begins ~1920)
