The Mojave Water Agency and U.S. Geological Survey are working together in a comprehensive program to monitor water levels and maintain historic records throughout the Regional Basin. The graphed wells are selected based on spatial and temporal representation of the Subarea. **All wells on the Hydrograph Map are a part of the MWA Monitoring Program, and have data available to the public at either the Mojave Water Agency Website, and/or the USGS National Water Information System Water Data for the Nation Website**
For more information please contact Mojave Water Agency.
